

Workshop on R and Apache Storm

Abstract:

This workshop will provide participants with an overall understanding of R programming, Apache Storm and sufficient skills to perform real time data analysis. Topics include data management, data analysis, graph generation and manipulation.

Highlights of the workshop on R and Apache Storm:

- R Analytics
- Machine Learning in R Analytics
- Companies using R Analytics
- R – Use Cases
- Apache Storm
- Companies using Apache Storm
- Apache Storm – Use Cases
- Integration of R and Apache Storm
- Conclusion
